

STAT SHEET - Ontario Provincial Political Landscape - SES Research Poll

Methodology

Between November 25th and November 27th, 2006, SES Research conducted a random telephone survey of 500 Ontarians 18 years and older. The aggregate survey results are accurate $\pm 4.4\%$, 19 times out of 20. Margins of accuracy are wider for subgroup samples. Readers should note that the data was weighted for gender and age to match the latest Canadian census results for Ontario. Results should be considered representative of the Ontario population. Results may not add up to 100% due to rounding.

The initiative was part of the SES Trillium Omnibus Survey in Ontario conducted monthly and was registered with the Marketing Research and Intelligence Association of which SES is a Gold Seal Corporate member.

About SES

Established in 1987, SES Canada Research Inc. is a full service public opinion research and management consulting firm. SES is regularly called upon by corporate, government and para-public clients in Canada and the United States to conduct research and provide strategic advice.
